HIGHLIGHT LAST UPDATE 06/21 (03/08/21)

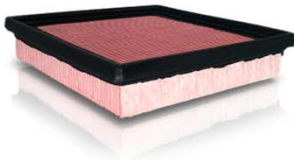

NEW APPLICATION TOYOTA C-HR

C-HR 2.0 Hybrid (MAXH10) (112KW-152HP) - Mot.M20AFXS 10/19->

AR1728PM

NISHIBORU

TOYOTA C-HR

It focuses heavily on innovative design, but it is also advanced from a technological point of view. On an aesthetic level, with the latest restyling the C-HR has gained new headlights with daytime running lights integrated into the upper part of the headlight assembly, while at the rear a glossy black element connects the two headlights for a sportier look. The bumpers have also been changed, as well as the arrangement of the air intakes and secondary elements. The general setting of the passenger compartment, on the other hand, does not change, while the infotainment has been updated, it is now compatible with Apple CarPlay and Android Auto standards and uses smartphone connectivity to update navigation maps.
